NOTE: THIS OLD FENCE LINE RAN TO THE NORTH ANOTHER 660 FEET UNTIL MILLER BUILT A NEW FENCE TO EDWARDS ATKINS 1985 SURVEY. THE OLD EXISTING FENCE WAS THEN REMOVED BY LEWIS. THIS INFORMATION WAS GAINED FROM LEWIS WHEN HE NOTICED THAT MY NEW MONUMENT FELL IN THE OLD FENCE LINE.

SURVEYORS NARRATIVE:
THE PURPOSE OF THIS SURVEY IS TO LOCATE AND MONUMENT THE BOUNDARIES OF THE MILLER TRACT AS RECORDED ON REEL 106. PAGE 775. UMATILLA COUNTY DEED RECORDS. AND THE TREBILCOCK TRACT AS RECORDED ON REEL 216. PAGE 1448 UMATILLA COUNTY DEED RECORDS. THESE TRACTS ARE LOCATED IN THE NE 1/4 OF THE SW 1/4 OF THE NW 1/4 OF SECTION 5. T 4 N. R 29 E.. W.M.. THIS SURVEY WAS CONDUCTED AS THE FIRST STEP IN THE PREPARATION AND MONUMENTING TWO SEPARATE PARTITION PLATS WITH A SHARED BOUNDARY. BOTH TRACTS ARE LOCATED IN A STANDARD GOVT. SECTION SUBDIVISION (1/64) OF SECTION 5. DUE TO THE MANY DOUBLE AND TRIPLE CORNERS FOUND. I FELT THAT A SEPARATE BOUNDARY SURVEY WAS REQUIRED IN ORDER TO KEEP THE INTENDED PARTITION PLATS LESS CLUTTERED AND CONFUSING.
THERE HAVE BEEN MANY SURVEYS DONE IN SECTION 5 WHICH HAVING USED DIFFERENT CORNER MONUMENTS OR DIFFERENT COMPUTED COORDINATES DO NOT MATCH. A REVIEW OF THE OF THE SURVEYS PRIOR TO THE SURVEY BY EDWARDS FOR THE UMATILLA COUNTY SURVEYOR IN 1995 WILL VERIFY THIS. THE SURVEYS CONDUCTED AFTER THE 1995 COUNTY SURVEY HAVE USED THE SAME MONUMENTS FOR THEIR SECTION BREAKDOWNS AND ARE IN REASONABLE AGREEMENT.
EDWARDS IN A 1976 SURVEY FOR BARNS SET A 1/2" REBAR 20 FEET SOUTH OF HIS COMPUTED LOCATION FOR THE CENTER OF SECTION 5. IN A 1985 SURVEY FOR ATKINS. EDWARDS STATES THAT A 1" I.P. WAS FOUND OVER THIS 1/2" REBAR. IN A SURVEY FOR VanGORDER HE CALLS FOR A 1 1/2" PIPE SET OVER HIS 1976 1/2" REBAR AND ALSO STATES THAT IT HAD BEEN MOVED NORTH 0.76' BY FENCE CONSTRUCTION. IN A SURVEY BY HADDOCK FOR McQUIN. ALSO DONE IN 1995. HADDOCK CALLS FOR A 1" IRON PIPE WITNESS CORNER 20' SOUTH OF THE CENTER OF SECTION. HADDOCK USED THIS 1" IRON PIPE TO COMPUTE THE LOCATION OF THE CENTER OF SECTION. NO MENTION OF EDWARDS STATEMENT THAT THIS PIPE WAS OUT OF POSITION BECAUSE OF FENCE BUILDING. I BELIEVE THAT THIS PIPE OVER EDWARDS 1/2" REBAR IS NOT OR EVER WAS INTENDED TO REPRESENT A WITNESS CORNER AND WAS SET AS A PROPERTY CORNER DURING EDWARDS 1976 SURVEY FOR BARNS. ROBERTS (I BELIEVE CORRECTLY) IN A SURVEY FOR BARTLETT IN 1997 DID NOT USE THIS 1" ID PIPE OR THE 2" ALUM. CAP SET BY EDWARDS FOR THE CENTER OF SECTION 5 IN THE 1995 SURVEY FOR VanGORDER. ROBERTS RECOMPUTED THE CENTER OF SECTION USING THE INTERSECTION OF THE EAST AND WEST 1/4 CORNERS AND THE NORTH 1/4 CORNER OF SECTION 5 WITH EDWARDS 2" ALUM. CAP.
AFTER TYING THE NOTED FOUND MONUMENTS AND COMPARING THEM WITH THE RECORD. I DETERMINED THAT ROBERTS 1997 SURVEY AND ITS MONUMENTS WERE WELL WITHIN THE PRECISION STANDARDS AND ALSO APPEARED TO BE A SECTION BREAKDOWN WHICH I COULD AGREE TO AND SUPPORT. I HELD ROBERTS RECORD OF SURVEY FOR BEARINGS AND DISTANCES BECAUSE AFTER REVIEWING THE RESULTS OF MY FIELD TIES AND COMPARING THEM TO ROBERTS RECORD THE DIFFERENCES WERE SO SMALL THERE WAS NO JUSTIFICATION TO CHANGING THEM.
IT SEEMS THAT SETTING MULTIPLE CORNERS IN THIS SECTION IS THE TRADITION. I DID NOT BREAK THIS TRADITION BECAUSE MANY OF THE OLDER MONUMENTS WERE SET USING WRONG DATA. I FEEL THAT THE DEVELOPMENT IN THIS AREA IS NOT INTENSE ENOUGH THAT HOLDING THE BAD MONUMENTS WAS JUSTIFIED AND IT IS NOT TOO LATE TO MAKE CORRECTIONS. ALSO THE DEEDS ARE CLEAR. BY CALLING FOR STANDARD SECTION BREAKDOWNS.
