

AGENDA ITEM FOR ADMINISTRATIVE MEETING

() Discussion only
(X) Action

FROM (DEPT/ DIVISION): Public Works
PROGRAM: 45300-550004 Non-Capital Equipment Technology
SUBJECT: Wireless com link and communication headsets

<p>Background: The public works department is requesting approval to purchase a Sonetics com system for use in our day to day operations. We currently have one of these systems we have operated since 2017. Currently we have seen the need for another one of these units to help facilitate operations and crew safety. The total cost of the 5 headsets, com hup and charging case is \$8,765.00 and would come out of non-capital technology.</p>	<p>ACTION REQUESTED: Authorization to purchase a Sonetics com hub, 5 wireless headsets, and 5 person charging case unit from Owens Equipment in the amount of \$8,765.00</p>

WIRELESS SYSTEM COMPONENTS & HOW IT WORKS

Wireless headsets for your team, a ComHub to connect them together, and a charging case to keep you going.

COMHUB & BASE STATION

The Sonetics Wireless portable ComHub & fixed in place Base Station are the brains of a Sonetics Wireless Communication System. These devices support full duplex, real-time conversation between 2-20 Sonetics APEX Wireless Headsets.

DECT7 allows users to talk on up to five different channels and operates on 1.9GHz band to provide secure, interference-free communication. With internal and external antennas, the ComHub Base Station configures itself for the best reception and a line-of-sight range of up to 1,600 feet.

Learn More About Comhubs / Base Stations (<https://www.sonetics.com/products/comhubs-and-base-stations/>)

APEX WIRELESS HEADSETS

The Sonetics APX377 & APX379 wireless headsets connect to the ComHub or Base Station to allow a hands-free conversation with your team without having to shout. The headset protects you from dangerous noise levels while automatically adjusting audio to a comfortable listening level. Listen-Through allows you to hear what's happening around you, so you can stay aware of alarms, and warnings, or have a face-to-face conversation with someone without a headset.

The APX379 headset also incorporates Bluetooth to simultaneously take calls, listen to music, or even integrate a two-way radio via wired or Bluetooth inputs.

The APEX headsets are engineered and tested for rugged durability in extreme environments and improve team communication no matter where you work.

Explore Sonetics APEX Headsets (<https://www.sonetics.com/products/headsets/>)

SONETICS APEX CONNECT

When working in an environment where hearing protection isn't needed or required, you can choose the light and portable Apex Connect. The Connect allows you to communicate effortlessly with the rest of your team while using your favorite Bluetooth headset, headphones, or speaker – or plug in a wired headphones.

Team systems can support a combination of APEX Connect and APEX 3-Series headsets.

PORTABLE CHARGING CASE

Simple and Easy Charging — Charge your entire system inside the case with a single 120V wall adapter. The Pelican Storm case is rugged and robust, & watertight with custom foam dividers to protect your headsets and ComHub. The case is also mobile with a telescoping pull handle and inset wheels.

SONETICS WIRELESS SYSTEMS FEATURES

PUSHING THE POWER BUTTON IS AS COMPLICATED AS IT GETS

With Sonetics systems, you'll get crisp, clear audio, advanced hearing protection, and secure communication, making it safer and easier than ever to get the job done.

FULL-DUPLEX COMMUNICATION

Superior voice quality so you can understand what you're hearing. Hands-free like your cell phone, but without the noise! No radio or licenses required, and it's completely secure and encrypted!

[\(/technology#dect7\)](/technology#dect7)

LISTEN-THROUGH TECHNOLOGY

Mix in outside sound for improved awareness. Hear traffic noise, warnings and alarms without removing your hearing protection. And just like shooter muffs, it suppresses sudden loud noises automatically.

[\(/technology#headsets\)](/technology#headsets)

SITE-COVERING RANGE

Up to an impressive 1,600 feet from the ComHub, team wireless systems cover job sites large and small. Connect your portable radio to go even further.
