SURVEY NARRATIVE

This survey was performed at the request of the City of Stanfield in conjunction with the City's installation of municipal improvements in the area. The survey represents an expansion of the "Proposed Street" shown on Umatilla County Survey No. 86-57-Ax.

The Oregon Department of Transportation is currently adopting a new right-of-way for U.S. Highway 395. Therefore, the monuments placed by this survey near the Southwesterly end of the new street are intended to allow for the projection of the new street boundaries to the new highway right-of-way line upon its establishment.
