NARRATIVE OF SURVEY

The purpose of this survey was to locate and monument the boundaries of a 1.00 acre homestead for the Umatilla Reservation Housing Authority. The overall boundaries of Allotment UM-22 (B) were located based on monuments found as shown on this survey plat. It should be noted that maps and notes supporting the BLM monuments set in 1988, have not yet been filed by BLM, in the County Surveyor's Office. The boundaries of the 1.00 acre homestead are located totally within the overall boundaries of Allotment UM-22 (B), and are situated as shown on this plat. Bearings for this survey are based on record bearings between monuments on the West line of Section 30, T2N, R33E, as reported on the 1917 Wilke's survey for the General Land Office. (See survey dated 2/22/82, by PLS 1106, recorded in the County Surveyor's Office). This survey was done with a 2 man crew using a MAC II H infra-red distance meter and a Wild T-16 theodolite.
