PIPE
SET 2" x 36" x 24" UNDER SURFACE
FND ROTTED CEDAR POST

NOTE: Search was made for the NE cor of Sec 30, but nothing could be found; hence I proceeded as follows:
Made a series of 3 Solar observations which I averaged. I then ran South from the NE Cor of Sec 18 to the SE Cor of Sec. 30; I could find nothing between; I then ran E. from the NW cor. of Sec 30 to the NE cor. of Sec. 29. I then made a double proportion to set the NE cor. of sec. 30. During my search at this point I found the remains of an old post which agreed well with the point set.

After the N. Line of Section 30 was determined I set the required pts. as shown.
