who were by the surveyor, each, duly sworn. We Viewed, surveyed and located said road no 388 as specified in our order We find the route specified in petition for said road no 388 to be practicable as far as the crossing of Pine Creek, but the remainder of the route as described in petition for said road we find to be impracticable. We are informed that the principal petitioners were misled on account of an incorrect knowledge of true corners, and the ground being covered with snow at the time of Preliminary examination, We, therefore, after crossing Pine Creek angled to intersect the line running N & S, through the N E 1/4 of Section 6. T. 3 N. R 37 E and from said intersection south to intersect County road no- thence run west along county road no- to center of said section 6. this point being specified as the terminus of said road no. 388. the road as thus surveyed being on much better and very good grade and more satisfactory to said petitioners. We would recommend be declared a Public Highway.

Witness our respective hands this 4<sup>th</sup> day of June A.D. 1892
