

History of original corner establishment:

The original survey was made by George S. Pershin under contract No. 332, dated July 29, 1879. The corner was set Aug. 18, 1879. A perpetuation of this corner was made by Umatilla County Surveyor Ralph Thompson during his term in office of which he set a brass cap and new bearing trees of which his notes are on file in the Umatilla County Surveyor's office.

Description of corner evidence found:

Found a brass cap and new bearing trees at the location of this corner; I could not identify any of the original bearing trees, though there was a chip of wood with scribing nailed to a tree; finding no better evidence I accepted the brass cap as being at the original corner and continued my retracement survey.

Description of monument and accessories established to perpetuate the original location of this corner:

None.
