

Subdivisional Lines, T. 2 S., R. 32 E., W.M.

Chains		Feet
80.16	The Cor. to Secs. 5, 6, 7, & 8.	
	N. bet. Secs. 5 & 6 on a random line.	
	Var. $21\frac{1}{2}^{\circ}$ E.	
40.00	Set temp. $\frac{1}{4}$ Sec. Cor.	
80.10	Intersect N. Bdy. at Cor. to Secs. 5 & 6, from which, I run	
	S. bet. Secs. 5 & 6 on a true line.	
30.00	Spring brook, 3 lks. wide, runs N.E. Ascend hill.	
40.10	Set stone, 36 x 8 x 6, for $\frac{1}{4}$ Sec. Cor.	
80.10	The Cor. to Secs. 5, 6, 7 & 8.	400
	Land; rolling. Soil; good 2nd. rate.	
	Nov. 27, 1864.	
	General Description.	
	The quality of land in this Tp. is generally very hilly,	
	being on the N. slope of the Blue Mts. The Southern part	
	of the Tp. is almost on the summit of the Mt. and is	
	unfit for settlement, grazing or timber and is there-	
	fore unsurveyed. The middle and northern portions are	
	very hilly, but has fine grass and is well watered	
	with springs and the East Fork of Birch Creek.	
	There are about 20 settlers in the Tp.	
	Subdivisional Lines, T. 2 S., R. 31 E., W.M.	
	As surveyed by John C. Arnold, U.S. Deputy Surveyor.	
	Under Contract No. 551,	
	Dated March 19, 1890.	
	Preliminary to completeing the subdivision of this Tp., I	
	run the S. and the E. Bdy. of Sec. 36, and found the	
	courses and distances, practically the same as given	
	in the exterior Bdy. of the Tp.	
	Survey commenced Sept. 29, 1891, with a Burt's improved	
	solar compass, with micrometer-telescope attachment,	
	manufactured by W. & L.E. Gurley, Troy, N.Y.	
	I commence at Cor. for Secs. 19, 24, 25 & 30 on E. Bdy.	
	of Tp., which is a basalt stone, 16 x 12 x 11 ins.,
