81.28	The Cor. to Secs. 5, 6, 7 & 8. Soil; 3rd rate. Land; rolling Undergrowth of sagewood.	
	Oct. 26, 1860	

General Description

The quality of the land in this Tp. is about the common average. There is a considerable quantity of 1st rate soil on the Umatilla river, but is very much injured by Alkali which exists in considerable quantities in some parts.

The uplands are rolling, 2nd and 3rd rate land, and adapted chiefly to grazing purposes, on the N. extreme of the Tp., it is sandy, 3rd rate, producing little else than wild sage, which usually grows rank and high.

The Umatilla is a beautiful stream of clear water, passing through the entire Tp., its banks are low, and on this season can be crossed at most any point.

Timber chiefly Balm, Maple, Alder and Willow. There are 4 or 5 settlements in sections, 34, 35 & 36.

UMATILLA PROJECT, OREGON.

Subdivision of farm units along Oregon Railroad and Navigation Company's track that are subject to or may become subject to homestead entry under the Reclamation Act through sections 3, 10, 15 & 22, Township 4 North, Range 28 East, Willamette Meridian.

Party:

W. Roy Saxton, Assistant Engineer
